ABOUT ME -

I passionately pursue creativity in my life. Photo, video, printmaking, floristry, and sewing are my current forms of practice and play. Learning is the bread and butter in life, and I plan to continue to expand the knowledge I have already gained with every opportunity I get.

EXPERIENCE -

- | | | | |
|-------------|--|----------------|----------------------|
| DATE | 19/07/2021 | TITLE | USU Gymnastics |
| TASK | I crafted a vibrant, evolving video to spotlight gymnasts' abilities, refreshed weekly with seasonal highlights, for pre-competition viewing. Navigating our client's demanding yet unclear brief, we engaged in continual dialogue and revisions, successfully meeting their standards within the deadline. | | |
| DATE | 01/05/2020 | PROJECT | Water Labs Animation |
| TASK | To make Utah's water research accessible to broader audiences, I led the creation of a hand-animated presentation, meticulously ensuring factual accuracy and impact. As the project's animator and editor, I used Adobe Premiere Pro for audiovisuals and Procreate for animations. | | |
| DATE | 27/07/2019 | PROJECT | Wedding Film |
| TASK | Together with the couple, we devised a shot list and visual strategy before their wedding. On the day, the photographer and I coordinated to capture staged and spontaneous moments smoothly over 8 hours, crafting a compelling story of Taylor and Sophie's celebration. | | |

skills noun
/skil/ • the ability to do something well.

- Sony Operator**
Film Production
- DaVinci Resolve**
Colour Grading
- Adobe Premier Pro**
Video Editing
